INVESTOR GRIEVANCE REDRESSAL POLICY - AIF

April 2022

BACKGROUND:

Kotak Investment Advisors Limited (“KIAL/Company”) acts as an Investment Manager to various Alternative Investment Funds (“AIFs”) registered with the Securities and Exchange Board of India (“SEBI”).

At KIAL, we believe that Investor Service is a vital element for sustained business growth and we want to ensure that our investors receive exemplary service across different funds. We also believe that prompt and efficient service is essential for retaining existing relationships and therefore, investor satisfaction is paramount for us considering we are the investment managers of various AIFs. Investor queries and complaints constitute an important voice of Investor, and this policy details grievance handling process through a structured grievance redressal framework. Grievance redressal is supported by a review mechanism, to minimise the recurrence of similar issues in future.

KIAL has a dedicated “Investor Relations” desk that is responsible for timely and prompt communication with our investors, while having an open attitude towards service recovery, and providing alternate solutions to investors, thus ensuring healthy relationships with our investors.

Communication received from the Investors will be considered as a complaint for consideration in Grievance Redressal Policy on the basis of broad parameters as determined by the IR team. Those lapses that result in further interactions and can be substantiated/ proved to have occurred due to undue delay/error of KIAL and/or its service providers will, in the normal course be considered as a complaint. In case the lapse is due to misinformation or mistake on the part of the investor or any external agency not appointed by KIAL, then such a lapse will not be treated as a complaint.

These parameters are indicative as of the date of the policy and KIAL can amend these parameters over a period of time at regular intervals after taking into account the nature of interactions with the investors for considering the same as complaint. Parameters that are wide and having more than one interpretation would be interpreted as per set industry practices / proven nomenclature / precedents for the benefit of the Investors.
